

What is Compass+ ?

Compass+ is a free digital product from The Careers and Enterprise Company, funded and recommended by the Department for Education.

Compass+ enables you to benchmark, track and report on your whole careers provision, right down to individual learner level. It effectively supports you to make important strategic decisions about careers delivery in your institution.

Use Compass+ to:

- Focus your priorities and inform your careers strategy
- Meet the individual needs of all learners
- Futureproof your careers provision
- Identify strength and success in your careers programme
- Quality assure careers
- Centralise your Careers Partners
- Protect your data and adhere to GDPR

Already using a career planning platform?

Compass+ integrates with many other digital products, allowing you to upload careers activities straight into Compass+. Sharing this information enables you to effectively **evaluate**, **analyse** and **plan** careers activity in your institution.

Drive careers forward with Compass+

Complete **Compass evaluations** and **internal leadership reviews** backed by data rich reporting

Deliver **Future Skills Questionnaire** with learners to measure their career readiness over time

Easily **share data and reporting with appropriate stakeholders** to foster greater engagement and support for careers
